

Quote-Ready Review

Example Battery Systems Ltd
Project / reference: Portable inspection equipment
2026-10-03

ILLUSTRATIVE EXAMPLE

RFQ snapshot

Application: portable inspection equipment · Nominal voltage: 24V · Capacity / energy: around 10Ah · Expected volume: estimated 1,000 units/year

Confirmed for quotation

Requirement	Confirmed value
Application	portable inspection equipment
Nominal voltage	24V
Capacity / energy	around 10Ah
Expected volume	estimated 1,000 units/year

Quote blockers

4 quote blockers identified

- 1. Continuous and peak current requirements
- 2. Dimensions / form factor
- 3. Charging approach and BMS requirements
- 4. Operating environment, ingress and temperature range

Quote-ready status

NOT QUOTE-READY

Engineering review can progress once the 4 priority inputs above are confirmed.

Recommended next action

- 1. Prioritise the blocking inputs and send a concise clarification request.
- 2. Move the confirmed requirements into engineering review.

Draft customer clarification

Subject: Your quotation enquiry — clarification points

Thank you for sharing your enquiry. Could you please clarify:

- 1. Could you confirm continuous and peak current requirements?
- 2. Could you confirm dimensions / form factor?
- 3. Could you confirm charging approach and BMS requirements?
- 4. Could you confirm operating environment, ingress and temperature range?

Kind regards, [Your team]
